

# **SHOT MAX™**

CITC ShotMax™ is a unique product which can simultaneously and continuously launch product as quickly as you can feed it! With the ShotMax's unique suction mechanism, the confetti is never touched by blades or a motor and no CO2 is needed, so it's simply and easy to use.

## FEATURES:

- The ShotMax is the only continuous launcher of confetti & streamers without the need for CO2 cartridges
- Launch a limitless combination of media, including Confetti and Streamers of all color combinations and materials. Can even launch CITC SnoBiz™ snow, Nerf Balls or any soft media
- Launch as far as 25'. With a CITC Hurricane Fan launch even further
- Can be used to blast low ground fog that carries up to 50'
- 75% quieter than any competitive product
- Made in the USA

*We offer Stacked and Streamer Tissue Confetti as well as Mylar Confetti and SnoBiz bio-degradable artificial snow!*
